□ Legal research and writing is a discipline dealing with adequate skills and techniques for finding relevant legal materials and using them in the process of writing either in law or about law How to find relevant materials (be it sources of law, judicial decisions, parliamentary archives, or pieces of academic writings)

## **Legal Methodology & Legal Research and Writing**

Context is something we've been thinking a lot about at ScienceOpen recently. It comes from the Latin 'con' and 'texere' (to form 'contextus'), which means 'weave together'. The implications for science are fairly obvious: modern research is about weaving together different strands of information, thought, and data to place your results into the context of existing research.

## **Why 'context' is important for research - ScienceOpen Blog**

Legal research would, in a similar vein, involve the collection of legal materials for the purpose of discovering new facts that would contribute to the body of knowledge in a legal field or subject. Legal research is defined by legal studies since it is the materials that are used in legal studies and the topics that are
