To understand whether the problem is with the webcam or with your computer, we would advise that you try your webcam on a different computer. Also, if you have access to one, try a different camera at your own computer. This should leave you with a better understanding on what's working and what isn't, and what needs to be fixed. If you think the camera isn't working (you tried it on two ...

1. Simply click "Allow" in the box to the right, wait a few seconds, and then you should see yourself (or whatever your camera is pointed at right now), plus some numbers on the side indicating the number of FPS (Frames Per Second) that are recorded. 2. If you see yourself and the FPS count, then, hooray - your camera passed the test.

Q: I have an ECO Series DVR. Why can't I see playback controls in Internet Explorer 11? A: When playing back video from your DVR using the Internet Explorer 11 browser, the playback controls are hidden on some ECO systems (highlighted in red below). We are currently investigating this issue and will release an update shortly.
