Consider Caruth's conversation with Robert Jay Lifton in Listening to Trauma: Conversations. Trying to summarize Lifton, Caruth says "there's a double survivor situation, but a survivor and a proxy survivor, and it's the meeting of those two that constitutes the witness." (p. 18)

Cathy Caruth drives me crazy, thoughts ... - About trauma

Trauma is a sensitive and difficult topic that may remind participants of their own experiences and trigger various responses during the training session. For example, some participants who have experienced trauma may attempt to share personal information, while others may become quieter or more withdrawn.

In "Talking about Trauma" The Blue Knot Foundation's guide to having difficult conversations, it discusses the five trauma-informed care principles: safety, trust, choice, collaboration, and empowerment. Using these principles and having a conversation with the member early on about boundaries is going to help lay down a foundation with the member.
