It seems that the choke needle is always down (it doesn't move up when the power is applied) so I guess it is broke. Any idea of the carb type fitted to the scooter and cheap places to buy either a complete spare carb with choke, or just a replacement choke or if anyone knows if a manual conversion is available. Thanks again.

### Piaggio auto choke - On Two Wheels Forum

great now i understand ,with auto choke you come to bike choke is on ,as if you had pulled out the choke on a manual one,then as your bike starts up the auto choke starts to slowly extend closing off the choke as if you were pushing the choke back in on a manual choke. easy when someone explains thanks . - Wayne Spencer Nov 15 '18 at 12:12
