Wastewater. Wastewater is sewage. Examples include water from toilets, bathtubs, or other sources of contaminated water. Not all contaminated water can be disposed of as wastewater in Seattle's or King County's sewer systems. See the Side Sewer Code for requirements. You can also research water availability with our water and sewer map.

Sewer & Drainage - Utilities | seattle.gov

How to Use This Manual This manual is intended for use as general design criteria for domestic sewage collection and treatment systems. Criteria contained in this manual will be used by the Department of Ecology, Water Quality Program, in the review of documents submitted pursuant to Chapter 173-240 WAC.
